PROFESSIONAL SUMMARY

Results-driven Full-Stack MERN Developer with 1+ year of hands-on experience building scalable web applications, browser extensions, and AI-powered platforms in production environments. Currently contributing to EasyLlama — a compliance training platform serving 3.8 million+ learners across 8,000+ organizations — delivering responsive, accessible UI using React.js and Next.js. Adept at delivering user-centric solutions with a strong focus on clean architecture, performance optimization, and seamless API integration. Passionate about leveraging modern JavaScript technologies to solve real-world problems.

TECHNICAL SKILLS

Front End: React.js, Next.js, TypeScript, JavaScript, Tailwind CSS, SCSS, Bootstrap

Back End: Node.js, NestJS, Express.js, Socket.IO

Database: MongoDB, MySQL, Firebase

Tools & Platforms: Git, GitHub, Bitbucket, Postman, Plasmo (Chrome Extensions)

WORK EXPERIENCE

Associate MERN Stack Developer | [Devsloop Technologies](#)

July 2025 – Present

- Contributed to the development of Smodin, an AI-powered content generation and detection platform supporting 100+ languages and serving close to 1 million monthly users globally.
- Developed key frontend features using React.js and Next.js, improving overall platform UX and responsiveness.
- Built and maintained backend services using NestJS, including RESTful API endpoints and service modules.
- Engineered a Chrome Extension using Plasmo that captures selected browser text and delivers AI-based detection and humanization features through backend API integration.
- Collaborated with cross-functional team members to deliver production-ready features in an Agile environment.

MERN Stack Developer Intern | [Devsloop Technologies](#)

March 2025 – July 2025

- Assisted in building full-stack features across the MERN stack under senior developer mentorship.
- Developed and integrated frontend UI components with backend REST APIs.
- Gained hands-on experience in real-world development workflows, Git branching, and code review processes.

Frontend / MERN Developer | [Eizitech Software House](#)

Feb 2025 – March 2025

- Designed and implemented responsive user interfaces using React.js, Tailwind CSS, and Bootstrap.
- Developed and integrated RESTful APIs using Node.js and Express.js.
- Contributed to end-to-end feature development across multiple client projects.

PROJECTS

EasyLlama (Ongoing)

- Building responsive, accessible UI components for EasyLlama, a compliance training platform serving 3.8 million+ learners across 8,000+ organizations with a 94% learner satisfaction rate.
- Collaborating with the team to develop scalable frontend architecture for an ongoing client project.

Smodin — AI Content Platform & Chrome Extension

- Contributed to a production-level AI platform for content generation and plagiarism detection, supporting 20+ languages and close to 1 million monthly users globally.
- Built a Chrome Extension that captures selected browser text, calls backend APIs, and returns AI-generated results inline.

- Developed backend modules and controllers using NestJS and contributed to frontend with React.js and Next.js.

RapidChat — Real-time Chat Application

- Designed and built a real-time messaging system supporting instant messaging and group conversations using Socket.IO.
- Developed an intuitive, responsive frontend with React.js and implemented backend services with Node.js and Express.js.

VCart — E-commerce Platform

- Developed a fully functional e-commerce application using React.js, Node.js, Express.js, MySQL, and Stripe for payment processing.
- Built RESTful APIs, managed relational database schemas, and integrated a complete checkout and payment flow.

EDUCATION

BS Computer Science | [University of the Punjab, Gujranwala](#)
CGPA: 3.37 / 4.00

Sep 2020 – June 2024
